# FITTERS EDGE

**Code 9668**

**Show Ration for Beef Cattle**

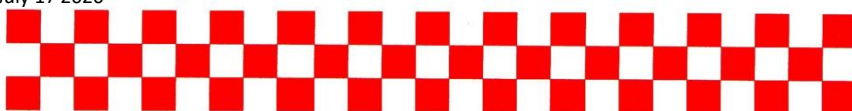

**Fitters Edge** is a complete Purina beef feed formulated to meet the nutritional requirements of the brood cow, replacement heifers and bulls (yearling & mature).

**Fitters Edge** is ideal for beef animals in a show string.

FEATURES	BENEFITS
Contains flaked corn and flaked barley	Ease of digestion Supports developing and finishing of show cattle
Contains pelleted beet pulp	Aids in maintaining hydration and "bulk"
Specially formulated to meet the nutritional requirements of cows, replacement heifers and bulls	Balanced protein and energy levels maximize frame development and lean muscle gain Optimizes reproductive efficiency Enhances forage intake and utilization when fed at the correct level
Provides extra nutrients to the brood cow	Ensures proper fetal (calf) growth and supports milk production post-calving
Highly fortified with vitamins and minerals	Helps to support development and a healthy immune system for traveling show cattle Maximizes nutrient utilization and feed efficiency
High quality multiple source protein ingredients	Improves protein balance and supply for optimal growth or lactation performance
Complete feed in highly palatable coarse texture	Convenient and easy to use Ensures consistent consumption and performance
Animal by-Product free	Peace of mind
Manufactured in a HACCP approved facility with high standards of biosecurity and quality	Consistent quality feed Showing our commitment to feed safety and customer satisfaction
Purina feed manufactured in Atlantic Canada	Minimizes transport cost Optimizes freshness

# FITTERS EDGE

Code 9668

Feed Purina **Fitters Edge** to show cattle in amounts that will balance the available forage. Frame, genetics and management will determine finishing period.

## FEEDING DIRECTIONS

1. Feed beef heifers **Fitters Edge** at a rate of 0.5 to 1.0% of body weight per day depending upon the desired performance or body condition
2. Feed yearling beef steers and bulls **Fitters Edge** at a rate of 0.75 to 1.25% of body weight per day to optimize lean muscle gain.
3. Feed mature beef steers and bulls **Fitters Edge** at a rate of 0.5 % of body weight per day to maintain the desirable body condition score for breeding season.
4. Feed brood cows **Fitters Edge** at a rate of 2.0 to 3.5 kg per cow per day.
5. Feed with average to above average quality forage. Offer Purina mineral and salt free choice.

## GUARANTEED ANALYSIS

Crude Protein	Min.	16.00%
Crude Fat	Min.	3.00%
Crude Fibre	Max.	24.00%
Sodium	Actual	0.34%
Calcium	Actual	1.00%
Phosphorus	Actual	0.59%
Vitamin A	Min.	10,500 IU/kg
Vitamin D <sub>3</sub>	Min.	3,150 IU/kg
Vitamin E	Min.	20 IU/kg
Selenium	Added	0.30 mg/kg

## OPTIMIZE YOUR BEEF RATION

Clarence Farm Services Ltd. recommends you follow these management practices:

1. Provide a source of clean, fresh water at all times.
2. For most forage programs, provide the appropriate Purina cattle mineral and free-choice. Minerals should be provided in sheltered feeders.
3. When changing forages or cattle rations, the change should be made gradually by mixing the new ration with the old ration for a period of one week.
4. Consult your veterinarian for recommended herd health program.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your local Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
