SUPPLEMENTS

#35840

Pur-A-Plus®

Pur-A-Plus is a vitamin enriched viable yeast culture (Saccharomyces cerevisiae) supplement for horses. Yeast improves the micro-flora in the hind gut by increasing the number of cellulytic and lactic-acid-utilizing bacteria, and this enhances fibre digestion. Pur-A-Plus is ideal for older horses, horses prone to colic, horses under stress (shipping and training), horses receiving antibiotics and horses with hay bellies.

Analysis

| Moisture (max.) | 14.00 % |
|-------------------|---------------------------|
| Vitamin A (min.) | 52 000 ^{I.U./kg} |
| Vitamin D3 (min.) | 10 000 I.U./kg |
| Vitamin E (min.) | 1 000 ^{I.U./kg} |

Saccharomyces cervisiae 3.34 x 10⁸ cells/gram (334 million) minimum CNCM I-1077

Feeding rates

Purina Pur-A-Plus is a vitamin enriched yeast culture supplement for horses. Using the scoop supplied in the pail, feed 2 to 3 level scoops per horse per day as top dress or mixed into the grain concentrate portion of the ration (each scoop supplies 28 grams). Do not feed PUR-A-PLUS to horses on a free-choice basis.

Characteristics

| Saccharomyces cerevisiae | Has been shown to increase fibre and phosphorus digestion and to improve protein utilization. |
|--|--|
| Contains 12 added vitamins including Vitamin E | • To meet the nutritional requirements of the horse for improved performance, health and appearance. |
| Palatable | To increase feed intake and maintain body condition. |
| Convenient and versatile | It can be fed to a wide range of horses. |

Ingredients

| Fibre | Dehydrated Alfalfa Meal |
|------------------------|--|
| Protein/Amino Acids | |
| Starch | Oat Flour |
| Fat | |
| Prebiotic | Yeast Cell Wall |
| Probiotic | Yeast |
| Vitamins | Vitamin A, Vitamin D3, Vitamin E, Vitamin K, Riboflavin, Niacin, Thiamine, Vitamin B12, Biotin, Pantothenic Acid, Folic Acid, Vitamin B6 |
| Minerals | Diatomaceous Earth |
| Multi-Attributes | |
| Flavour/Binder | Dextrose |

^{*} Ingredients are not in order of their inclusion rate.

- 1. Purina recommends analyzing your hay and balancing the ration accordingly.
- Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.
- 3. Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.
- 4. Make any feed change gradually over a 7 to 10 days period.
- 5. Daily ration should be divided into 2 and pre-ferably 3 separate feedings or more.
- Use a scale to weigh your feed so you know exactly how much your horse is being fed. Do not feed by volume.
- These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Consult your Purina Equine Consultant if necessary.
- 8. Follow sound management practices along with optimal preventive veterinary medicine.

Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
