Vitamin A	Min.	4,500 IU/kg
Vitamin D ₃	Min.	900 IU/kg
Vitamin E	Min.	23 IU/kg
Selenium		0.30 mg/kg

OPTIMIZE YOUR PIG'S DIET

Clarence Farm Services Ltd. recommends you follow these management practices:

1. Provide a source of clean, fresh water at all times.
2. Any ration change should be made gradually.
3. Provide fresh feed daily and prevent feed from accumulating and mould development in feeders.
4. Provide adequate space in a draft-free, clean, dry and well ventilated environment.

Consult your veterinarian for recommended health programs for your local area. This includes internal and external parasites.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your local Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
