# Sheep Mineral Block ABF

Code 3141

Purina **Sheep Mineral Block ABF** is designed to be fed to sheep and goats in the pasture or confinement. Average daily intake is 30-50 grams.

## Block Feeding Tips:

Place the blocks near a water source

Place the blocks near hay feeders

Place the blocks on well-drained soil

Make sure there are sufficient numbers of blocks to match the number of animals.

1 block of 25 kg / 25 sheep or goats

If consumption is different than expected, check forage quality as it will impact intake.

Manganese	Actual	2,750 mg/kg
Zinc	Actual	2,750 mg/kg
Cobalt	Actual	15 mg/kg
Fluorine	Max.	500 mg/kg
Vitamin A	Min.	160,000 IU/kg
Vitamin D <sub>3</sub>	Min.	48,000 IU/kg
Vitamin E	Min.	1,700 IU/kg
Selenium	Added	21 mg/kg

## OPTIMIZE YOUR SHEEP'S DIET

Clarence Farm Services Ltd. recommends you follow these management practices:

Purina's **Sheep Mineral Block ABF** should only be used as a mineral/vitamin supplement, and not to be used as a protein and/or energy supplement.

### PASTURE

Have one 25 kg block available to 25 animals.

**Sheep Mineral Block ABF** should be fed only when:

A) The quantity and quality of pasture are excellent.

B) The desired performance is low even though the condition of pasture is excellent.

C) Sheep mineral block should be fed in combination with a grain ration, when pasture quality is average to poor.

With an average consumption of **Sheep Mineral Block ABF** at 30 g/head/day, supplementation of other minerals (e.g. salt) is not required.

### CONFINEMENT

Have one 25 kg block available for 15 to 25 animals.

With an average consumption of **Sheep Mineral Block ABF** at 30 g/head/day, supplementation of other minerals (e.g. salt) is not required.

Do not offer this block to animals other than sheep and goats.

Directions for use must be carefully followed.

Feed is perishable. Store in a dry well ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.

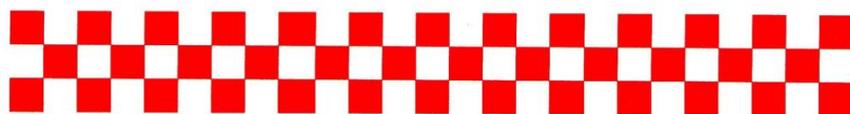

Sheep should be vaccinated against enterotoxaemia.

Consult your veterinarian for recommended health programs for your local area. This includes internal and external parasites.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your local Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
