## OPTIMIZE YOUR GOAT'S DIET

Clarence Farm Services Ltd. recommends you follow these management practices:

Offer high quality roughage.

Provide a source of clean, fresh water to goats and kids at all times.

Feed according to forage quality, body size, and body condition.

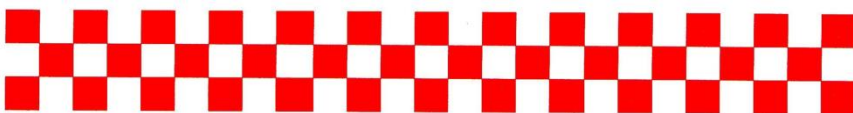

Any ration change should be made gradually. Supplemental mineral and salt may need to be fed.

Consult your veterinarian for recommended health programs for your local area.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your local Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
