OPTIMIZE YOUR DEER CHOW

Clarence Farm Services Ltd. recommends you follow these management practices:

1. Provide a source of clean, fresh water. It can be supplied as well water, natural streams and ponds or snow in extensive grazing systems.
2. For most roughage programs , provide the appropriate Purina mineral plus plain salt free-choice. Minerals should be provided in sheltered feeders.
3. Clean feeders frequently.
4. Consult your veterinarian for a recommended herd health program.

If necessary, consult your local Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
