OPTIMIZE YOUR TURKEY RATION

Clarence Farm Services Ltd. recommends you follow these management practices:

1. Provide a source of clean, fresh water free choice at all times.
2. Any ration changes should be made gradually.
3. Do not use Amprolium medicated feeds as treatment for outbreaks of Coccidiosis.
4. Consult your veterinarian for recommended flock health program.
5. Directions for use must be followed carefully.
6. Do not feed this feed in association with another grain ration, supplement or premix containing selenium.
7. Feed is perishable. Store in a dry, well ventilated area protected from rodents and insects. Do not feed mouldy or insect-infested feed to animals or it may cause illness, abortion, or death.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your local Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
