

# PRODUCT UPDATE

**PURINA**<sup>®</sup>

We are continuously striving to upgrade our products. With this in mind, we updated our extruded EQUILIBRIUM SPORT XT so it can also answer the needs of growing foals and broodmares.

**NOW MORE EFFECTIVE THAN EVER.**

|                   |        | BEFORE       |   | NOW                   |
|-------------------|--------|--------------|---|-----------------------|
| <b>Calcium</b>    | Actual | 0.70%        | → | <b>1.35%</b>          |
| <b>Phosphorus</b> | Actual | 0.50%        | → | <b>0.75%</b>          |
| <b>Vitamin A</b>  | (min.) | 8000 I.U./kg | → | <b>10,000 I.U./kg</b> |
| <b>Vitamin D3</b> | (min.) | 1500 I.U./kg | → | <b>2200 I.U./kg</b>   |

EQUILIBRIUM SPORT XT is recommended for equine athletes, racehorses, broodmares, foals and breeding stallions. Feed in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stemmed forage (hay/pasture). Feed whereby the lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Purina Superior Recommendations. Ideally, feed enough to achieve desired body condition, and for every kilogram under the recommendation for equine athletes, racehorses, and breeding stallions feed 225 grams of Purina Equilizer (35710), and for every kilogram under the recommendation for broodmares and foals feed 275 grams of Optimal (35720). Provide free-choice salt. Daily ration should be divided into 2 and preferably 3 separate feedings daily.
