CFS HORSE CHOW CHECKERS

Code 3501

The perfect choice for your excitable work & leisure partner that is an easy keeper!

CFS Horse Chow Checkers is a complete pelleted feed with built-in roughage designed for active adult horses of all ages, including senior horses. **CFS Horse Chow Checkers** can replace part of the daily hay ration because of its high level of good quality digestible fibre.

CFS Horse Chow Checkers' level of starch is minimal. It can safely be fed to horses that get "hot" on grain-based rations.

| FEATURES | BENEFITS |
|---|--|
| 25% crude fibre content from high quality roughage sources | Can substitute up to 50% of daily hay ration to limit the feeding of poor-quality hay or pasture |
| Guaranteed nutrient analysis | Provides a consistent level of balanced nutrients, vitamins and minerals More consistent than hay |
| Pelleted form | A dust-free complete feed, which is excellent for older horses or horses with respiratory conditions Prevents sorting for more consistent nutrition |
| Contains organic Selenium | Higher bioavailability and optimal absorption |
| Moderate energy level (calories) | Perfect choice for easy keepers if fed in adequate amount |
| Minimal amount of starch/ Low NSC | Keeps horses from becoming too "hot" |
| Contains probiotic yeast culture | Improves the digestibility of dietary roughage resulting in increased energy and protein utilization |
| Can safely be fed to senior horses | Easily digested by the "aged" horse Should be fed soaked for older horses |
| Manufactured with the highest standards of bio-security and quality | Consistent quality feed Showing our commitment to feed safety and customer satisfaction |
| CFS horse feeds and supplements are animal by-product free (ABF) | Peace of mind |
| Available at a competitive price | Excellent value |
| Quality horse feed manufactured in Atlantic Canada | Minimizes transportation costs Optimizes freshness |

CFS HORSE CHOW CHECKERS

Code 3501

Feed **CFS Horse Chow Checkers** in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long-stemmed forage (hay/pasture). Feed according to the following table. The lower quantity meets minimum vitamin and mineral requirements, and the higher quantity meets Superior recommendations. Ideally, feed enough to achieve desired body condition. For every kilogram under the Superior recommendation, provide 200 grams of **CFS Elevate** (3573). Depending on hay analysis, and/or age of horses, **CFS Select** (3571) may be better suited as the ideal top-dress supplement.

| Activity Level | Kg / 100 Kg of Body Weight / Day | |
|-------------------|----------------------------------|----------|
| | Minimum | Superior |
| Maintenance | 0.67 | 1.00 |
| Light Exercise | 1.07 | 1.33 |
| Moderate Exercise | 1.20 | 1.50 |

CALORIE METER

| Multi-Attributes | Wheat Shorts |
| Flavour/Binder | Molasses |

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean, dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or CFS Equine Consultant 902-890-5354 or equine@cfs.ca
