

Code 3529
A traditional feed for your equine partners

CFS Pro Horse 200 is a highly fortified, quality pelleted feed formulated to meet the nutrient requirements of leisure, pleasure, and performance horses.

FEATURES	BENEFITS
Balanced complete feed for the performance and pleasure horses	Provides the correct balance of energy, protein, minerals and vitamins, including organic Selenium & Vitamin E Enables horse to optimize performance potential while maintaining peak physical condition, body score and tissue repair
Available in pellet form	Pellet format provides management flexibility to optimize feed intake and easily makes a wet mash Ingredients can't be sorted by the horse
A premium product	Provides best bottom-line value from quality ingredients
Contains organic Selenium	Higher bioavailability and optimal absorption
Convenient & versatile	Fits a wide range of horses
Highly palatable	Ensures optimum feed intake
Easily balanced	Balances with CFS Elevate or CFS Select for easy keepers
No added fat	To increase fat & fortification top dress with Pur-Athlete
Manufactured with the highest standards of biosecurity and quality	Consistent quality feed Showing our commitment to feed safety and customer satisfaction
CFS horse feeds and supplements are animal by-product free (ABF)	Peace of mind
Available at a competitive price	Excellent value
High quality feed manufactured in Atlantic Canada	Minimizes transport cost Optimizes freshness

CFS Pro Horse 200

Code 3529

Feed **CFS Pro Horse 200** in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long-stemmed forage (hay/pasture). Feed according to the following table. The lower quantity meets minimum vitamin and mineral requirements, and the higher quantity meets superior recommendations. Ideally, feed enough to achieve desired body condition. For every kilogram under the superior recommendation, provide 225 grams of CFS **Elevate** (3573). For growing horses or low hay analysis **CFS Select** (3571) may be better suited as the ideal top-dress supplement.

ACTIVITY LEVEL	Kg. per Day /100 Kg per Body Weight	
	MIN.	SUPERIOR
Maintenance	0.67	1.00
Performance		
Light Exercise	0.73	1.33

Vitamin D₃	Min. 2,200 IU/kg	
Vitamin E	Min. 300 IU/kg	
Selenium	Added 0.40 mg/kg	

CALORIE METER

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

Follow sound management practices along with optimal preventive veterinary medicine.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your Purina Dealer or CFS Equine Consultant at 902-890-5354 or equine@cfs.ca
