D & H HEIFER DEVELOPER W/O

Code 1100

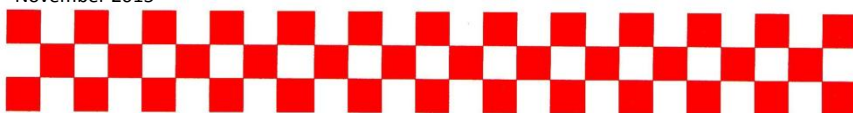

16% Heifer Ration

D & H HEIFER DEVELOPER W/O is a complete diet designed for heifers (4 to 24 months of age) and dry cows.

FEATURES	BENEFITS
Designed to meet the nutritional requirements of heifers from four months of age to two weeks before calving	Optimal growth of dairy heifers Maintains growth of fetus 60 days before pre-partum
Complete, balanced formulation	No added supplements or grains are required Efficient heifer growth for calving at 24 months Helps maintains body condition on dry cows Ensures calf receives proper nutrition pre-calving
Multi source, high protein ingredients	Improves amino acid balance and protein supply for enhanced growth
Available in pellet/checker texture	Reduces nutrient separation Reduces feed wastage
16% protein	Works with mixed forage programs
Manufactured in a HACCP approved plant with high standards of bio-security and quality	Showing our commitment to feed safety and customer satisfaction Consistent quality feed
Purina feed manufactured in Atlantic Canada	Minimizes transport cost Optimizes freshness

Vitamin E	Min.	100 IU/kg
Selenium	Added	0.30 mg/kg

OPTIMIZE YOUR DRY COW & HEIFER RATION

Clarence Farm Services Ltd. recommends you follow these management practices:

1. Provide a source of clean, fresh water at all times.
2. For most forage programs, provide the appropriate Purina dairy mineral free-choice. Minerals should be provided in sheltered feeders.
3. When changing forages or milking rations, the change should be made gradually by mixing the new ration with the old ration for a period of one week.
4. Consult your veterinarian for recommended herd health program.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
