# PERFORMANCE 40%

Code 1955

**40% Dairy Supplement**

**PERFORMANCE 40%** is an Purina protein/mineral/vitamin supplement to be mixed or top fed with on-farm produced grains. Feed **PERFORMANCE 40%** and grains to milking cows fed hay, haylage or a mixture of corn silage and haylage.

FEATURES	BENEFITS
By-pass protein (UIP/DIP) formulation using multiple source, high quality protein ingredients	Protein efficiency – less feed protein for more milk Optimizes the feeding value of on-farm forages
Complete fortification of essential minerals and vitamins	Healthier cows – reduction in mastitis, metritis, off –flavour milk
Supplement	Provides ease of mixing offering convenience for setting and handling meter mills
Nutritionally balanced	Nutrients enhance rumen microbial protein production Balances ration relative to intake and for higher production
Available in pellet/checker or ett form	Palatable and convenient Reduces dustiness, nutrient separation, and feed wastage problems
Manufactured in a HACCP approved plant with high standards of bio-security and quality	Showing our commitment to feed safety and customer satisfaction Consistent quality feed
Purina feed manufactured in Atlantic Canada	Minimizes transport cost Optimizes freshness

## OPTIMIZE YOUR DAIRY SUPPLEMENT

Clarence Farm Services Ltd. recommends you follow these management practices;

1. Provide a source of clean, fresh water at all times.
2. For most forage programs, provide the appropriate Purina dairy mineral free-choice.
3. For higher producing cows (greater than 30 kg milk daily) use Purina **TOP MILKER** or **MILK PERFORMER** for extra energy, by-pass protein.
4. Any forage or ration changes should be made gradually.
5. Consult your veterinarian for a recommended herd health program.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
