Vitamin E	Min.	70 IU/kg
Selenium	Added	0.30 mg/kg

## OPTIMIZE YOUR DAIRY HEIFER RATION

Clarence Farm Services Ltd. recommends you follow these management practices:

1. Provide a source of clean, fresh water at all times.
2. Provide plain salt and the appropriate Purina dairy mineral free-choice.
3. To ensure freshness, offer only the amount of feed the heifers will consume in one day.
4. Proper housing and sanitation are important to help prevent calf diarrhea and pneumonia.
5. Consult your veterinarian for recommended herd health program.
6. Any ration changes should be made gradually.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. If necessary, consult your Purina Dealer or Clarence Farm Services Ltd. Farm Consultant.
