CFS SWEETENA PLUS coarse

Code 3539

Feed **CFS SWEETENA PLUS** in conjunction with at least 1-2.5 % of body weight (on a dry matter basis) of a long-stemmed forage (hay/pasture). Feed **CFS SWEETENA PLUS** according to the following table. The lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets our Superior recommendations. Ideally, feed enough to achieve desired body condition. For every kilogram under the Superior requirements provide 225 grams of **CFS Elevate** (3573). For growing horses or low hay analysis **CFS Select** (3571) may be better suited as the ideal balancer. **CFS Sweetena Plus** may be top dressed with Pur-Athlete for added fat.

ACTIVITY LEVEL	Kg / 100 Kg of Body Weight	
	Minimum	Superior
Maintenance	0.50	0.75
Light Exercise	0.65	1.00
Moderate Exercise	0.73	1.13

Phosphorus	Actual	0.60%
Vitamin A	Min.	8,666 IU/kg
Vitamin D ₃	Min.	1,600 IU/kg
Vitamin E	Min.	300 IU/kg
Selenium	Added	0.40 mg/kg

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs.

Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or Purina Certified Equine Specialist 902-890-5354
