CFS Pro Horse 200

3529

Feed **CFS Pro Horse 200** in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long-stemmed forage (hay/pasture). Feed according to the following table. The lower quantity meets minimum vitamin and mineral requirements, and the higher quantity meets superior recommendations. For every kilogram under the superior recommendation, provide 225 grams of CFS **Elevate** (3573). For growing horses or low hay analysis **CFS Select** (3571) may be better suited as the ideal top-dress supplement.

Activity Level	Minimum kg/100/ of body weight /day	Superior kg/100/ of body weight /day
Maintenance	0.67kg	1.00kg
Light Exercize Moderate Exercise Intense Exercise	0.73kg 0.82kg 0.91kg	1.33kg 1.50kg 1.67kg
Breeding Stallion Non-Breeding Stallion	0.73kg 0.67kg	1.33kg 1.67kg
Gestating Mare Lactating Mare	0.73kg 0.91kg	1.33kg 1.67kg
13-18 Months 19-24 Months	1.33kg 1.25kg	1.67kg 1.67kg

Nutrients	Ingredients Representative ingredients only; not a complete list or in order of inclusion.
Fibre	Dehydrated Alfalfa Meal

Multi-Attributes	Wheat Shorts
Flavor / Binder	Molasses, Spice Flavouring

KEY FEATURES

Balanced complete feed for the performance and pleasure horses

Enables horse to optimize performance potential while maintaining peak physical condition, body score and tissue repair

No Added Fat

To increase fat & fortification top dress with Pur-Athlete

Versatile

One balanced formula for horses across multiple disciplines and activity levels

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean, dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or CFS Equine Consultant 902-890-5354 or equine@cfs.ca
