CFS Breeders Edge

3530

Feed **CFS Breeders Edge** in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stem forage (hay/pasture). Feed according to the following table. The lower quantity meets minimum vitamin and mineral requirements, and the higher quantity meets Superior recommendations. Ideally, feed enough to achieve desired body condition. For every kilogram under the Superior recommendation, provide 275 grams of **CFS Select** (3571).See tag for more details.

Activity Level	**Minimum** kg/100/ of body weight /day	**Superior** kg/100/ of body weight /day
Broodmares		
Gestating Mare Lactating Mare	0.73kg 0.91kg	1.00kg 1.25kg
Foals		
4-6 Months 7-24 Months	1.00kg 0.91kg	1.25kg 1.25kg

Nutrients	**Ingredients** Representative ingredients only; not a complete list or in order of inclusion.
Fibre	
Protein / Amino Acids	DL-Methionine, Soy Meal, Lysine, L-Threonine
Starch	Ground Barley, Flaked Corn, Ground Corn
Fat	Soy Oil
Vitamins	Choline Chloride, Vitamin A, Vitamin D3, Vitamin E, Vitamin K, Riboflavin, Niacin, Thiamine, Vitamin B12, Biotin
Minerals	Salt (Sodium Chloride), Calcium, Calcium Propionate, Calcium Iodate, Cobalt Carbonate, Copper Sulphate, Dicalcium Phosphate, Ferrous Sulphate, Manganese Oxide, Zinc Oxide, Organic Selenium, Selenium
Multi-Attributes	Wheat Shorts
Flavor / Binder	Molasses

KEY FEATURES

Quality textured feed with ground grains

Increases digestibility of starch

Minimizes dust

Balanced For Breeding

Provides nutrients required for healthy growth and development

Versatile

Provides mares with quality nutrition to improve milk production and maintain body condition

Satisfies the increasing nutrient requirements of nursing foals as they grow

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean, dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or CFS Equine Consultant 902-890-5354 or equine@cfs.ca
