CFS Select

Ration Balancer

CFS Select is designed to provide the correct balance of essential vitamins and minerals to horses not receiving the recommended amount of a Purina or CFS fortified feed. For growing horses or low hay analysis, **CFS Select is** the ideal top-dress supplement. **CFS Select** is ideal for lactating mares and foals. **CFS Select** increases the total nutrient content of the ration without significantly increasing the level of calories.

CFS Select

3571

Feed Purina **CFS Select** as the sole ration according to the following table, to easy keeping mares, foals and stallions to provide protein, vitamins and minerals without adding excess calories. **CFS Select** may be fed as a top dress in conjunction with a Purina feed for mares, foals and stallions that are not being fed the recommended amount of a Purina horse Feed. Provide 0.275 kg to 0.300 kg of **CFS Select** for every kilogram below the recommended amount of a complete Purina Horse Feed. Ration balancers are formulated to provide concentrated vitamins and minerals. Do not feed with other multivitamin and mineral supplements unless advised by a qualified equine nutritionist or veterinarian, as combining supplements may provide excessive amounts of certain nutrients.

Activity Level	**Minimum** kg/100/ of body weight /day	**Superior** kg/100/ of body weight /day
Maintenance	0.13 kg	0.20 kg
Light Exercise Moderate Exercise Intense work	0.23 kg 0.26 kg 0.29 kg	0.27 kg 0.30 kg 0.33 kg

Nutrients	**Ingredients** Representative ingredients only; not a complete list or in order of inclusion.
Fibre	Soyabean Hulls, Dehydrated Alfalfa Meal
Protein / Amino Acids	L-Lysine, Canola Meal, DL Methionine, Dried Brewers Yeast, Soybean Meal
Starch	
Fat	Soy Oil
Vitamins	Vitamin A, Vitamin D3, Vitamin E, Vitamin K, Riboflavin, Niacin, Thiamine, Vitamin B12, Biotin, Pantothenic Acid, Vitamin B6, Folic Acid, Ascorbic Acid
Minerals	Salt (Sodium Chloride), Calcium Carbonate, Defluorinated Phosphate, Magnesium Oxide, Calcium Iodate, Copper Sulphate, Tri-calcium phosphate, Ferrous Sulphate, Magnesium Oxide, Zinc Oxide, Organic Copper, Organic Manganese, Organ Zinc, Organic Selenium, Cobalt Carbonate
Multi-Attributes	Wheat Shorts
Flavor / Binder	Flavoring

KEY FEATURES

Versatile

Can be used as a sole ration for easy keepers, or balance a complete feed to create a custome ration

Hight Nutrient - Low calorie

Easily digested by the "aged" horse
Should be fed soaked for older horses

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.

Feed clean, dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.

Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.

Make any feed change gradually over a 7 to 10 days period.

Daily ration should be divided into 2 and preferably 3 separate feedings or more.

Use a scale to weigh your feed, so you know exactly how much your horse is being fed. Do not feed by volume.

Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.

These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or CFS Equine Consultant 902-890-5354 or equine@cfs.ca
