CFS Stable Edge

3600

Feed **CFS Stable Edge** horse feed in conjunction with at least 1% of body weight (on a dry matter basis) of a long-stem forage (hay/pasture). Feed **CFS Stable Edge** according to the following table. The lower quantity meets minimum vitamin and mineral requirements, and the higher quantity meets superior recommendations. Ideally, feed enough to achieve desired body condition. For every kilogram under the recommended level provide 200 grams of **CFS Elevate** (3573). Depending on hay analysis, **CFS Select** (3571) may be better suited as the ideal top-dress supplement.

Activity Level	Minimum kg/100/ of body weight /day	Superior kg/100/ of body weight /day
Maintenance	0.67 kg	0.76 kg

Nutrients	Ingredients Representative ingredients only; not a complete list or in order of inclusion.
Fibre

Minerals	Salt (Sodium Chloride), Calcium Carbonate, Monocalcium Phosphate, Calcium Iodate, Calcium Propionate, Cobalt Carbonate, Copper Sulphate, Ferrous Sulphate, Manganese Oxide, Zinc Oxide, Organic Selenium, Selenium
Multi-Attributes	Wheat Shorts
Flavor / Binder	Molasses

KEY FEATURES

Quality textured feed with flaked grains

increases digestibility of starch
Minimizes dust

Highly Palatable

Increases steady consumption

Economical Feed

reliable everyday feeding option for owners looking for value and simplicity

OPTIMIZE YOUR HORSE'S DIET

Clarence Farm Services Ltd. recommends analyzing your hay and balancing the ration accordingly.
Feed clean, dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.
Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.
Make any feed change gradually over a 7 to 10 days period.
Daily ration should be divided into 2 and preferably 3 separate feedings or more.
Use a scale to weigh your feed, so you know exactly how much your horse is being fed.
Do not feed by volume.
Clarence Farm Services Ltd. recommends providing a maximum of 0.5% of body weight of this feed at one time.
These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Follow sound management practices along with optimal preventive veterinary medicine. If necessary, consult your Purina Dealer or CFS Equine Consultant 902-890-5354 or equine@cfs.ca
